Dear Ms. Trubiniova,

Thank you for your information from 11 February 2019 about the recent urgent appeal of your NGO on Ministry of the Environment concerning unsystematic and unsustainable restructuring of the organization of the State Nature Conservancy in the Protected Landscape Area Danube floodplains (Dunajske luhy).

We take note of your appeal however we would like to underline that it is for Slovakia to decide about the administrative structure of nature protection, as long as the nature legislation (Habitats Directive 92/43/EC and Birds Directive 2009/147/EC) is properly implemented. Should you have any information and evidence that the above mentioned Directives or other EU legislation were breached, you are advised to use means of redress available at national level (legal action before a national Court), and if you consider it necessary to inform us or lodge a complaint for breach of EU law. The use of the complaint form is obligatory for lodging of a complaint:

http://ec.europa.eu/atwork/applying-eu-law/complaint_form_sk.htm

Yours sincerely,

(e-signed)

Paul SPEIGHT
